

	<p><b>Introducing the GCBS 2018 AMM Management Committee Election Nominees</b></p>
	<p><b>Martin Trott – (Nominee for Election)</b>  Martin, with wife Di, has lived in the village for 17 years. They instantly fell in love with the village due to a combination of the then recently held Village Fete and follow-up refreshments at the Drovers pub. From then onwards the Drovers soon became a frequent haunt, meeting neighbours from a variety of ages groups and backgrounds. Martins professional career has been in Mechanical Engineering, culminating in his most recent appointment as a Systems Engineer in the Aerospace industry. This role encompasses budget control, project management, risk elimination, liaising with customers and colleagues alike and life cycle management – as well as a bit of engineering!  He has enjoyed and supported the Drovers since moving to GAS and especially appreciated its importance as a social hub after its period of closure.</p>
	<p><b>Jill Allen – (Nominee for re-election 2018)</b>  Jill has lived in the village since 1962 and worked at The Drovers from 1980-1992 for various landlords. She is now a retired but busy grandmother.  As a long term resident Jill can clearly see the detrimental effect closure of The Drovers would have on the village. Being a steering committee member offers the chance to retain the pub on behalf of all the community in Gussage and the surrounding villages.</p>
	<p><b>Sally Marlow MCIM, FIDM. - (Nominee for re-election 2018)</b>  Sally has lived in Gussage All Saints since 1990 when she and husband Bob moved into the village and married in the Village Church. Throughout the years they have been regular users of The Drovers Inn even when standards of food and service were at their lowest ebb. It is the place where they caught up with friends and neighbours and made new friends. As a formally trained Marketing Professional Sally’s career spanned a range of Marketing Management roles for a number of blue chip organisations. The last eight years prior to retirement were spent as a Principle Business Consultant and Resource Manager for a large American Software Company.</p>
